

A Fake Marburg Virus Threat may be Used to Mandate Further Vaccinations

by Jeremy James

The pace of change in the world at this time is so great that major events can pass unnoticed by even vigilant observers, people who would normally have seen them and weighed their significance. We only have to look at developments in Canada, Australia, and New Zealand to see that constitutional democracy is collapsing in those countries. State coercion and police brutality have set aside rights that have existed for generations. Before March 2020 developments like these would have been headline news around the world, but today they hardly figure anywhere in the mainstream media.

We could give hundreds of examples, but it shouldn't be necessary. We only have to look at the order given by President Biden in the US to make the Covid vaccine mandatory in the military, the public service, and among large employers. In former times only a deranged tyrant could have issued decrees like these. Meanwhile the pressure in many countries to vaccinate children with an experimental cocktail of drugs which confer no benefit whatever is proof – if proof were needed! – that the old order is falling apart and a stultifying darkness is settling over the earth.

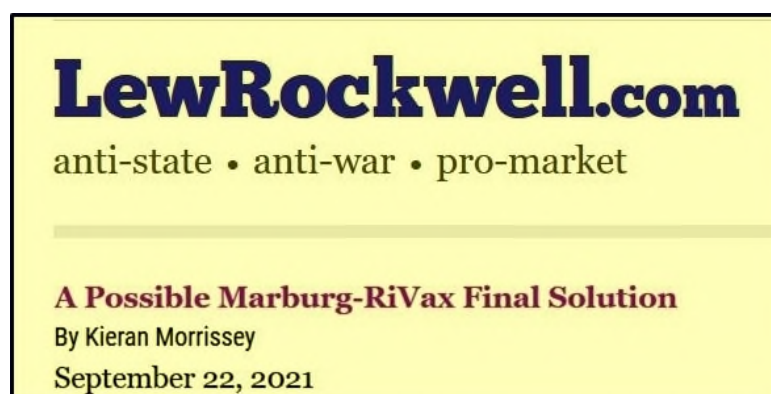

It pains us to point continually, in paper after paper, to these immensely bleak and troubling developments. We would like to propose “answers” that would offer genuine hope and allay all fears, but that would be unfair to those who truly want to understand what’s actually happening in the world. The vast majority of people are determined, despite all evidence to the contrary, to see nothing but a ‘new tomorrow’ and a return to normal. Nothing we say will make any difference. They ache for confirmation that the world they thought they knew will shortly resume its old familiar course. As Bible-believing Christians, we know it won’t. But a clear vision of where all of this is leading is not confined to those who study and believe the Word of God. Anyone who has studied history should be able to see this too, that the same malign, autocratic forces that shaped the past are busily at work today shaping the future.

The LORD gave us plenty of time to wake up

No one can claim they were caught off guard. God in His Mercy has allowed us ample opportunity to examine – in as much detail as we needed – the gross mis-government, corruption, greed and malice that characterize Western society. They were content to say nothing when someone else was the target of these despicable activities. Somehow they failed to appreciate that they, too, would one day become a target.

When the people of Ireland voted overwhelmingly in May 2018 to kill thousands of unborn children annually, purely for social and economic convenience, it never occurred to them that they had just signed away their own right to life.

So we will continue to tell it like it is. Very few are listening anyway. Strangely, many of those who see what’s coming and face it without flinching are not Christian. Frankly, I marvel at their courage. As a Bible-believing Christian I have the comfort of knowing that, no matter how bad things get here on earth, it will all come to a glorious conclusion. Christ will return in due course and crush the wicked. He will utterly obliterate the powers of darkness and shatter their stranglehold over the entire earth. The kingdom that he will then establish – a real earthly kingdom – will endure forever.

In this paper I would like to examine a warning issued by a fellow Irishman. On 22 September 2021, Kieran Morrissey published an article on lewrockwell.com titled, ***A Possible Marburg-Rivax Final Solution***. He also released a short video presentation with the same warning.

In order to show that his general argument is well founded, we have set it out in the following pages in a more discursive or explanatory form.

For many years the Elite have been warning the world of the great potential threat posed by two deadly diseases, Ebola and Marburg. It has been implied over and over that, if either of these dangerous pathogens mutated into a more contagious form they would cause millions of deaths in a very short time unless a suitable vaccine was developed. The dangers of ricin have also been aired widely in the media, especially after its use by a religiously motivated terrorist group, Aum Shinrikyo, in the Tokyo underground in 1995. Several thousand passengers were injured and about 14 died. Ricin is a highly toxic substance which can be made from castor oil beans by someone with little expertise and only basic equipment. It works by interfering with protein synthesis and leads within hours to respiratory failure. It was first developed by the Nazis for use as a nerve gas which they called 'Sarin.'

Sarin/Ricin gas attack on the Tokyo subway system, 1995.

Disproportionate attention given to rare and exotic diseases

These three pathogens – Ebola, Marburg, and Ricin – have received widespread media attention. This sensational coverage bears no relationship to the threat posed by any of them. For example, in the period 2017-2018, Ebola caused only 37 deaths worldwide. Where serious outbreaks do occur, it is invariably in subtropical regions where living standards are extremely low, nutrition is poor, and standards of hygiene are minimal. The number of deaths from Marburg is even lower, at just 4 in the period 2014-2017. Compare these rates of mortality with that of malaria, which caused 435,000 deaths in 2017 alone.

The disproportionate attention given in the mainstream media to these rare and exotic pathogens would suggest that the public in the West is being conditioned to believe that vaccines to protect against them will eventually be required. All that is needed is a trigger event, an 'outbreak' in Europe or America, to generate the required level of fear, stoked no doubt by horrific case reports in the media and greatly exaggerated rates of projected deaths.

The symptoms produced by these pathogens is of particular interest at a time when serious adverse reactions to the Covid vaccines are a matter of great concern. Both Ebola and Marburg cause what is known as hemorrhagic fever or massive internal bleeding. The disease attacks the cells which enable the blood to clot. Once this clotting factor has been disabled the victim suffers severe, uncontrollable internal bleeding. This is why the disease was long known as Ebola hemorrhagic fever, but has recently been renamed 'Ebola Virus', no doubt to augment the conditioned belief that, if something is a virus, it can only be tackled with a vaccine.

Marburg, which also causes death by massive internal bleeding, was known until recently as Marburg hemorrhagic fever. However, it too has undergone a semantic makeover and is now called 'Marburg Virus.'

As Mr Morrissey points out, the similarity between Ebola and Marburg, both of which interfere fatally with blood coagulation, and the main adverse event associated with the Covid vaccine, namely progressive clotting in the capillaries, is hardly a coincidence. The first two inhibit clotting, while the latter promotes it unnecessarily, but the same pathological phenomenon is observed – faulty blood coagulation.

If the Covid vaccines continue to cause a high rate of blood clotting among recipients, the manufacturers will need some way of covering their tracks and avoiding responsibility for an unfolding disaster. A Marburg or Ebola outbreak in Europe or America would create a whole new wave of medical uncertainty and frighten tens of millions into taking a suitable vaccine, if one were available. The numbers willing to take the vaccine would be greatly multiplied if a test was available which showed, before any symptoms appeared, whether or not one had contracted the virus.

Mr Morrissey checked to see whether these two conditions – (1) a new vaccine for Ebola or Marburg and (2) a suitable method for testing asymptomatic cases – were actually satisfied. And he found that they are.

The next hoax is ready to roll

We need to look further at this disturbing scenario. Many of the improbable developments that are needed to bring it about are already happening:

1... GAVI, April 2021

On 22 April 2021, the GAVI website published a paper with a very provocative title: “The Next Pandemic: Marburg?” It drew several obvious parallels with Covid-19. For example it stated that Marburg, like Covid, was believed to have originated in bats. It also implied that Marburg could be transmitted by asymptomatic carriers: “This can be extremely dangerous. In early 2021, there were reports that Ebola, closely related to Marburg, could lay dormant in people only to emerge many months after an epidemic had ended, triggering another outbreak.” Note that these two ‘deadly viruses’, Marburg and Ebola, are “closely related” to one another.

It states ominously: “Most outbreaks have been in Africa, with cases reported in Angola, the Democratic Republic of the Congo, Kenya, South Africa, Uganda and Zimbabwe. However, there have been outbreaks in Europe and the USA.” The author and GAVI, his sponsor, are sowing in the mind of the reader the possibility that this killer virus could suddenly break out in Europe or the US. This is blatant fearmongering and propaganda.

They then take this fanciful possibility and present it as a legitimate “pandemic threat”:

“As Marburg virus can spread from human to human through contact of bodily fluids, much like Ebola. As outbreaks in Europe and the US have already shown, increasing globalisation and international travel mean that the risk for global spread is high, especially when the incubation period could be up to three weeks. This could be disastrous given its high death rate.”

The author goes on to paint a gruesome picture of the devastation wrought by Marburg:

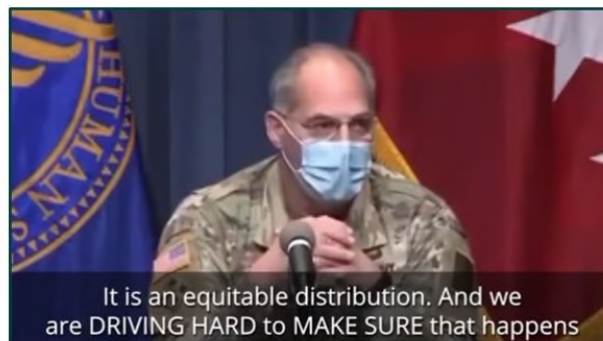

“Many people go on to develop severe viral haemorrhagic fever, and in severe cases have blood in their vomit and faeces, and may bleed from their nose, gums and vagina. The onslaught of the virus is so extreme that most people die 8-9 days after infection, often because of extreme loss of blood.”

Again we have a forbidding image, a “severe viral haemorrhagic fever” which, like a vampire, drains the life-blood from its victims.

The paper referred to the work now under way to develop a vaccine and “rapid diagnostics” to test whether asymptomatic carriers are unknowingly spreading the virus. It also leaves plenty of scope for a future ‘lockdown’ by stating that “extremely stringent infection control measures are needed to avoid people being in any contact with each other...”

Green Zone Internment Camps are Being Created All Across the United States

by Jeremy James

#253

2... WHO, August 2021

In a press briefing on 11 August 2021, the Director of the World Health Organization (WHO) announced the following:

“Last Friday, the Ministry of Health of Guinea informed WHO of a case of Marburg virus disease in the country’s south-west, in a man who died 8 days after onset of symptoms. This is the first known case of Marburg in West Africa. There is no licensed vaccine for Marburg, although there are vaccines under development, and WHO is working with our partners to seek opportunities to assess them during this outbreak through the R&D Blueprint for Epidemics.”

Marburg disease has been around since 1967 but only now is a vaccine in prospect. It is curious that the head of the WHO should be adverting publicly to this as Marburg is virtually unknown as a pathogen that might threaten any society and there is no demand whatever for a vaccine, not even in Africa – remember, it caused just 4 deaths worldwide in the period 2014-2017.

He then went on to say:

“Marburg is a very different virus to the one that causes COVID-19, but many of the elements of the response are the same: isolating and caring for those infected, tracing and quarantining their contacts, and engaging local communities in the response.”

Here he is drawing a direct comparison between Covid-19 and Marburg. Since tracing and quarantining are mentioned, he is implying that asymptomatic carriers would pose a threat to the community. This happened to be the main ‘medical’ reason for locking down nearly all western economies during Covid.

3... The Marburg vaccine

We have seen that both GAVI and WHO speak of a Marburg vaccine currently under development. This is one of the two conditions that must be met before a bogus pandemic can be set in motion. The advantage with a vaccine that is still in the experimental stage was made obvious in the so-called Covid pandemic. It can be released on the public under emergency approval, with no requirement whatever to demonstrate that it is actually safe.

This is all very convenient.

GAVI is overseen by the notorious medical genius, Bill Gates. This egomaniac has selflessly dedicated the latter decades of his life to developing vaccines which earn staggering profits for his foundation and greatly enlarge his already considerable wealth. Since he is the principal financial contributor to the World Health Organization, without whose donations it could not survive, Mr Gates is personally framing and directing the policies followed by almost every country on earth for the containment and elimination of infectious diseases. No one in history has exercised this level of control over the well-being of humanity.

Bill Gates with his father, Bill Gates Sn. His father was an ardent believer in eugenics and sat on the board of the slaughterhouse known as Planned Parenthood.

GAVI is the vehicle Gates is using, along with CEPI [see below] and his puppets in WHO, to shape medical opinion. The edicts issued by these bodies are then promulgated by the mainstream media and drip-fed to a naïve, scientifically illiterate public. So, when Gates says, *Watch out, Marburg is the next pandemic*, we can be fairly sure it plays an important role in his scheme to anchor future medical practise to his vaccine-themed ideology.

4... The Marburg test kit

The second condition that must be met before another ‘pandemic’ can be set in motion is the wide availability of a suitable clinical test for Marburg. The Covid lockdowns were enabled primarily by the bogus PCR test for Covid which was developed by a malicious German scientist. By using this phony test, governments were able to allege that the number of “cases” of Covid remained at a dangerously high level, even though the subjects concerned showed no symptoms whatever. This fraudulent concept, the ‘asymptomatic carrier’, was used to justify the suppression of social and economic activity across society and the incarceration of millions of healthy people in their own homes. The Marburg test will likely serve a similar purpose.

Details of the Marburg test kit were published by a company called PrimerDesign under its ‘genesig’ label in November 2018. It states: “The natural hosts of the Marburg virus are fruit bats, *Rousettus aegypti*. Transmission is thought to occur from fruit bats to humans after prolonged exposure to mines or caves inhabited by the bats... The symptoms of the disease are clinically indistinguishable from Ebola virus disease and can be easily confused with other prevalent diseases in typical regions such as other viral haemorrhagic fevers and more.” So, from a symptomatic perspective, Ebola and Marburg are “clinically indistinguishable.” This fits the narrative very nicely, leaving plenty of scope for obfuscation, ambiguity and confusion – exactly what one needs when pushing one bogus pandemic after another.

Soligenix

The company earmarked to produce the new Marburg vaccine is Soligenix. On 18 August, 2021, Soligenix issued a press release, “Soligenix Announces Positive Preclinical Data with Multiple Heat Stable Filovirus Vaccine Candidates” It said:

“Once developed, such a vaccine may be able to address emerging outbreaks, such as the Marburg virus infection that appeared in Guinea recently. We feel that this technology may be an important contribution to Dr. Fauci's proposed idea to develop prototype vaccines against the top 20 viral families that may also cause pandemics. Having such a platform available would likely enable broader and faster worldwide vaccination campaigns addressing future health emergencies.”

Such a Fauci-friendly proposal should make one's skin crawl. They envisage “worldwide vaccination campaigns” to address future pandemics and “health emergencies.” Since they are in the business of making profits – huge profits – we can infer that their pandemic predictions will shortly come to pass.

They also refer to the close similarity between Ebola and Marburg and the supposed common origin of these diseases, namely African bats:

“All species of ebolavirus belong to the Filoviridae family, a family that further contains the equally human pathogenic Marburg virus. Filoviruses are believed to be harbored in various animal species in Africa, particularly bats, although the specific reservoir host for many of these viruses is still unknown.”

They comment as follows on their funding sources:

“To date, this business segment has been supported with government grant and contract funding from the National Institute of Allergy and Infectious Diseases (NIAID), the Defense Threat Reduction Agency (DTRA) and the Biomedical Advanced Research and Development Authority (BARDA).”

Anyone who has studied this sordid business will hear alarm bells when NIAID, DTRA, and BARDA are mentioned in the same sentence. When these organizations work together it is solely in connection with bio-terrorism and biological warfare.

<div> <div>Defense Threat Reduction Agency</div>  </div>	The DTRA is part of the US military.
<div> <div>Biomedical Advanced Research and Development Authority</div>  </div>	BARDA is a government agency attached to the Department of Health, but with very close ties to the US military.
 <div> National Institute of Allergy and Infectious Diseases </div>	Dr Anthony Fauci was appointed head of the NIAID in 1984. Need we say more?

Psalm 91

- [1] He that dwelleth in the secret place of the most High shall abide under the shadow of the Almighty.
- [2] I will say of the LORD, He is my refuge and my fortress: my God; in him will I trust.
- [3] Surely he shall deliver thee from the snare of the fowler, and from the noisome pestilence.
- [4] He shall cover thee with his feathers, and under his wings shalt thou trust: his truth shall be thy shield and buckler.
- [5] Thou shalt not be afraid for the terror by night; nor for the arrow that flieth by day;
- [6] Nor for the pestilence that walketh in darkness; nor for the destruction that wasteth at noonday.
- [7] A thousand shall fall at thy side, and ten thousand at thy right hand; but it shall not come nigh thee.
- [8] Only with thine eyes shalt thou behold and see the reward of the wicked.

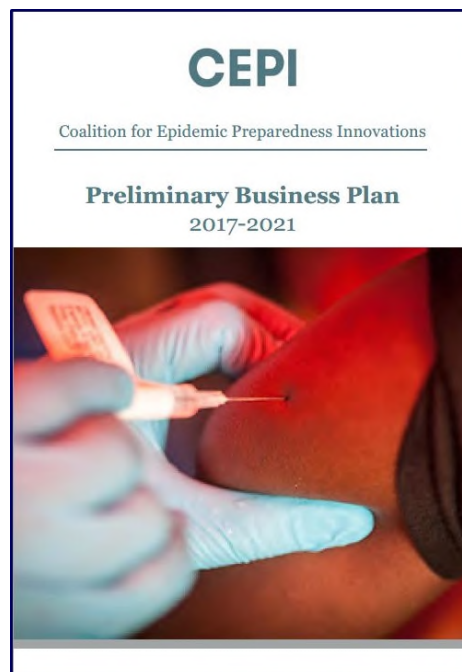

Who will profit from all of this?

Who will profit from all of this? Here is a list of the 10 principal owners of Soligenix:

Stockholder	Stake	Shares owned	Total value (\$)	Shares bought / sold	Total change
The Vanguard Group, Inc.	4.06%	1,629,404	1,710,874	+596,505	+57.75%
Knoll Capital Management LP	1.96%	787,830	827,222	0	0.00%
First Wilshire Securities Managem...	0.87%	350,000	367,500	0	0.00%
Renaissance Technologies LLC	0.74%	296,111	310,917	+296,111	--
Geode Capital Management LLC	0.61%	244,085	256,289	+25,549	+11.69%
BlackRock Fund Advisors	0.31%	122,190	128,300	+14,619	+13.59%
Citadel Advisors LLC	0.20%	81,772	85,861	-3,514	-4.12%
Virtu Financial BD LLC	0.20%	80,665	84,698	-47,401	-37.01%
Plante Moran Financial Advisors L...	0.18%	71,658	75,241	0	0.00%
Goldman Sachs & Co. LLC (Private ...	0.14%	54,006	56,706	+54,006	--

As we stated in some of our previous papers, a small number of immensely influential but little known investment companies own or control most of the large and highly profitable corporations on earth. Among the most powerful are Vanguard and BlackRock, each of which is a part-owner of Soligenix. Another major player, Goldman Sachs, is also on the list, as are Geode and Wilshire. These guys only invest where big returns are guaranteed. The same people who control these companies are behind the World Economic Forum, which meets annually at Davos in Switzerland and makes strategic decisions which decide the fate of nations. These are the 'Elite', the people who run the world and who intend to bring in a New World Order. Pandemic chaos will play a big part in their plan, as Covid has already shown.

According to the Urban Dictionary, a genix is produced when a genii mates with a phoenix. The company name, Soligenix, is a combination of 'Sol', meaning sun (a reference to their sun god, Lucifer) and 'genix', from the Greek root "genes" (-genic), meaning producer or generator. Therefore *Soligenix* could be translated to mean 'light bringer.' In the occult Lucifer is known as the Light Bearer.

CEPI

The World Economic Forum officially launched CEPI – Coalition for Epidemic Preparedness Innovations – in 2017. When a body is inaugurated in this way we can be sure it fits into a wider plan, one that has nothing whatever to do with reducing mortality rates in under-developed countries. The billionaires who meet at Davos despise the 'herd' and have no interest whatever in alleviating the suffering of humanity. After all, they are the same people who plan and finance wars and engineer economic calamities. They are also the ones who imposed crippling lockdowns across the world in 2020, causing immense suffering and hardship in the process.

CEPI defines its mission as follows:

“CEPI is an innovative global partnership between public, private, philanthropic, and civil society organisations launched in Davos in 2017 to develop vaccines to stop future epidemics. Our mission is to accelerate the development of vaccines against emerging infectious diseases and enable equitable access to these vaccines for people during outbreaks.”
[CEPI website]

We can get a glimpse of their real goal from the following chart:

CORE GROUP / FOUNDING PARTNERS	
NAME	ORGANIZATION
Jeremy Farrar	Wellcome Trust
Nancy Lee	Wellcome Trust
Mark Henderson	Wellcome Trust
Katherine Anastasi	Wellcome Trust
Ann Dixon	Wellcome Trust
Eli Collis	Wellcome Trust
Stuart Pritchard	Wellcome Trust
Charlie Weller	Wellcome Trust
Samia Saad	Gates Foundation
Sindura Ganapathi	Gates Foundation
Penny Heaton	Gates Foundation
Anja Langenbucher	Gates Foundation
Arnaud Bernaert	World Economic Forum
Stephanie Cristin	World Economic Forum
Vanessa Candeias	World Economic Forum
Bia Tessari	World Economic Forum

The list comprises the core members or founders of CEPI (excluding delegates representing the Norwegian Government). All three organizations – the Wellcome Trust, the Gates Foundation, and the World Economic Forum – have high ranking members who are strongly committed to world population reduction and favor the use of eugenic methods, including euthanasia and stealth technology, for this purpose.

They have set up bodies like CEPI and GAVI to advance this agenda. They are two sides of the same coin and financed by the same people. Take COVAX, for example, a body operating under the umbrella of the World Health Organization. It is controlled by CEPI and GAVI, and yet it is actively promoting a high uptake of the Covid vaccines which we now know are poisoning millions of innocent people:

COVAX is the vaccines pillar of the Access to COVID-19 Tools (ACT) Accelerator

The ACT Accelerator is a ground-breaking global collaboration to accelerate the development, production, and equitable access to COVID-19 tests, treatments, and vaccines. COVAX is co-led by Gavi, the Coalition for Epidemic Preparedness Innovations (CEPI) and WHO. Its aim is to accelerate the development and manufacture of COVID-19 vaccines, and to guarantee fair and equitable access for every country in the world.

From the WHO website.

We would be very foolish to think that any of the products being touted by CEPI and GAVI have a benign or philanthropic purpose. On the contrary, in light of the devastating harm being caused by the Covid ‘vaccines’ (high-risk experimental injections) we must assume that the vaccines to combat Ebola and Marburg will be just as dangerous.

The Davos billionaires are using the pharmaceutical mafia to bring the masses of humanity to their knees.

COVAX

With a fast-moving pandemic, no one is safe, unless everyone is safe

COVAX is co-led by **CEPI**, **Gavi** and WHO, alongside key delivery partner **UNICEF**. In the Americas, the PAHO Revolving Fund is the recognized procurement agent for COVAX.

CEPI

unicef

**From the WHO website. The message is clear:
no-one is safe until everyone has been vaccinated.**

Ebola	Ebola virus is a member of Filoviridae family, and has five species: Zaire ebolavirus (EBOV), Sudan ebolavirus (SUDV), Taï Forest ebolavirus (TAFV), Bundibugyo ebolavirus (BDBV) and Reston ebolavirus (RESTV). Transmission of Ebola virus to humans likely occurs through handling of infected chimpanzees, gorillas, monkeys, bats, antelopes and porcupines. <u>Person to person transmission occurs through direct contact with body fluids from Ebola patients, corpses of deceased Ebola victims, and contaminated objects.</u> Symptoms diffuse, with fever, headache, muscle pain, weakness, fatigue, diarrhea, vomiting, abdominal pain and bleeding or bruising. EBOV, SUDV and BDBV can cause large viral hemorrhagic fever disease outbreaks. The case fatality rate differs between the five species of Ebola virus, with EBOV showing up to 90% CFR. Since discovery of Ebola virus in 1976, the cumulative case number reported as at Dec 2015 is 31,048. (NIPH Vax opp report 2016)
-------	---

Extract from p.54 of CEPI 'Preliminary Business Plan', 2016.

CONCLUSION

The Ruling Elite did a trial run of their pandemic strategy about a hundred years ago when they murdered more than 20 million people worldwide using vaccines newly developed by the US military – the first recorded case occurred at Fort Riley, Kansas. It is generally believed that the most harmful of these untried vaccines was the one designed to protect against bacterial meningitis.

We know the catastrophe as 'the great Spanish Flu pandemic' but very few of these unfortunate victims died of flu. The cause of death in almost all cases was acute double pneumonia brought on by experimental vaccines. The background was as follows: The Rockefeller Foundation took advantage of the massive increase in the size of the US military in 1917 by administering more than a dozen experimental vaccines to new recruits. The same experimental vaccines were also exported to the military in Europe, mainly France. As soldiers sickened and died, the public became alarmed. The pharmaceutical industry took advantage of the great fear generated by this to develop and market so-called flu vaccines for the civilian population. As more people died, more rushed to receive one of these dubious new vaccines. Many of the victims were also encouraged to take large amounts of the 'wonder' drug known as aspirin which made them even more susceptible to respiratory failure. Thus, in a period of roughly six months, tens of millions of people died.

It is difficult at this remove to say how much of this catastrophe was due to malice aforethought, how much was due to further malicious actions taken during the event, and how much was due to medical stupidity and incompetence. One way or another the Elite learned a valuable lesson – If you want to kill millions of people, kill a small number first and blame their untimely demise on a deadly contagious disease and then advertise and exaggerate the disaster by every means possible. Next, offer the petrified public a miraculous ‘vaccine’ remedy. Include in the ‘vaccine’ a toxin which mimics the symptoms of the disease. Millions will die and no one will be any the wiser.

We have just seen a repeat of this wicked strategy in the so-called Covid pandemic.

The WEF-CEPI-GAVI-WHO coalition should be seen as an axis of evil that clearly intends to use Marburg and Ebola in its next campaign of terror. As Mr Morrissey suggests, they appear to want to exploit the hemorrhagic symptoms produced of the Covid vaccines to convince the public that a new, non-Covid, illness – both lethal and contagious – has arrived on the scene. This will deflect attention away from the real cause – the toxins secreted in the Covid vaccines – and place it on an imaginary new disease which, obviously, will require a miraculous vaccine to protect against it. In case the public is reluctant to accept the official explanation for the new illness, the authorities will have a ‘scientific’ test ready to prove that all of these cases are due to Marburg (or Ebola).

The alleged Marburg-Ebola test will likely be used in the same way as the bogus PCR test for Covid, marking as infectious, contaminated and dangerous anyone who tests “positive,” even if they are completely asymptomatic. We may witness a new round of lockdowns, far more draconian than the first, with millions of innocent people – all false positives – hauled off to quarantine camps for their own protection and the “greater good.” Even those who are not shown to be positive may be relocated from areas deemed by the authorities to be contaminated – please bear in mind that CEPI claims that person-to-person transmission can occur through direct contact with “contaminated objects.” Entire towns could be uprooted.

**“And God shall wipe away all tears from their eyes”
(Revelation 21:4)**

If the mainstream media produce hundreds of harrowing photos of ‘Marburg’ victims, rotting in their own blood, the public will panic. If video footage of a pile of coffins in N Italy induced millions to take the Covid vaccine, what effect will these frightening images have? The demand for instant protection – a magic vaccine – will be immense. As we know, the Soligenix brigade will happen to have exactly what the public demand. They will ride to the rescue on a white horse, syringe in hand, ready to save the world.

If we had set out this scenario eighteen months ago, no-one would have believed us. After Covid, however, it is not hard to see how quickly the world as a whole could slide into the sequence of events described in the Book of Revelation. For example, with a drastic collapse in the able-bodied workforce, the food supply would quickly contract and famine would be widespread. No country on earth would escape its terrible effects.

This evil is far greater than most people seem to realize, but there is One who stands against it! He defeated Satan on Calvary and is now sitting at the right hand of the LORD on high. When his Father gives the word, he will return to earth and annihilate the wicked. His advent will be stunning.

All who love Jesus and trust in his mercy must stand on the Rock. The Enemy wants to cause as much fear as possible. Along with deception, it is his greatest weapon. But love drives out fear. We must fill our hearts with this love, the love that Jesus has for each one of us, and utterly reject the stench of fear that the Enemy is sending in our direction.

Christ Our Lord came as a Lamb the first time, but this time he will come as a Lion, inflicting terrible vengeance on the wicked:

**“The LORD shall roar from on high, and utter his voice
from his holy habitation; he shall mightily roar upon his
habitation; he shall give a shout, as they that tread the
grapes, against all the inhabitants of the earth.”
– Jeremiah 25:30.**

What can we say to those who are still fearful? The LORD Himself tells us:

**“Say to them that are of a fearful heart, Be strong, fear not:
behold, your God will come with vengeance, even God
with a recompence; he will come and save you.”
– Isaiah 35:4**
